23 October 2014

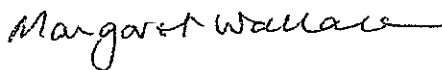

Dear Minister,

Thank you for your letter of 13 October 2014, in which you seek further advice about the extent to which the Ministerial Advisory Committee: Students with Disabilities can integrate the Better Together principles into the re-design of the Committee, following the recommendations of the Premier's review of Boards and Committees report.

I am pleased to forward you with further advice, as you have requested, and it is attached to this letter. The advice has also been provided to the Office of Non-Government Schools and Services, so that it can form part of the Department's advice to you.

I am confident that the proposed re-design of the Committee offers you improved opportunities for advice, which is well-informed by the communities it serves.

Yours sincerely,

Margaret Wallace
Chairperson
