# SA OVERSEAS GOODS EXPORTS, DECEMBER 2015

## Summary

In the 12 months to December 2015, the value of South Australia's overseas goods exports totalled \$11.7 billion.

This was down 1.8% (\$220 million) on the previous twelve months in original terms.

Nationally, the value of overseas goods exports was down 5.8% (\$15.3 billion) in original terms over the same period.

The total value of South Australian exports continues to be supported by growth in the value of exports of 'other/ confidential' (which includes bulk barley), wheat, wine, meat and meat preparations, and vegetables and fruit. These gains, however, were more than offset by declines in the value of exports of metal ores and metal scrap, copper, petroleum and petroleum products, and gold, silver and platinum.

Excluding minerals, petroleum and grains, South Australian exports in the year to December 2015 were up by 16%.

Export growth in the year to December 2015 was recorded in the export markets of US, Canada, Total EU, India, and Middle East but there have been declines in the major export destinations of China, Malaysia, Japan, Hong Kong and NZ.

Note: Monthly estimates of merchandise exports are generally volatile and are unadjusted for seasonal factors—consequently monthly data should be treated with caution. To provide a better indication of underlying trends, the majority of data reported in this brief relate to the latest 12-month period compared to the previous 12month period. All data are in original nominal terms, hence both quantity and price changes contribute to changes in values.

## Further Analysis
