Dear Premier

The Quorn Hospital and Health Services Health Advisory Council (HAC) received your correspondence dated 8 July 2014 with regard to the reform of South Australian government boards and committees.

The Quorn HAC is an active group of community members who provide information and feedback to the health service to assist in ensuring that local health services are appropriate, responsive and meet the needs of our local community. We give our time voluntarily and are committed to making a difference in our community

We meet regularly with other HACs in our region and discuss regional issues and issues of common interest however it is important to note that the communities in region are diverse with local issues that can only be addressed through our local health service.

All local HACs are committed to ensuring local health services respond to local needs and it is important to us that our involvement is valued and so that we can continue to approach our local community with confidence and ensure issues are appropriately raised and heard on their behalf.

Yours sincerely
