Background

In February 2013 Cabinet endorsed a new brand identity for South Australia to aid in driving consistent, long term representation of the State in key interstate and international markets.

The State Brand is based upon the values of creativity, innovation and industriousness – values which embody the State. The State Brand is a powerful identifying endorsement for the State and helps to encapsulate who we are, where we are and what we offer.

As migration is an important priority for the Government of South Australia, the State Brand has been incorporated into employment communications.

Interstate and Overseas Recruitment - Mandatory Requirements

The inclusion of Brand South Australia in the manner prescribed in this circular is mandatory for all government departments and agencies when recruiting for interstate or overseas candidates.

Design

Interstate and overseas recruitment and employment advertising or promotion undertaken by government agencies must include the following elements:

1. The Government of South Australia logo or agency specific variant
 - This should be applied as per the *Government of South Australia Branding Guidelines*
2. The State Brand logo
 - Vertical format logo to be used as depicted in this circular
 - Alignment with the Government of South Australia or agency specific variant at the base of advertising where possible
 - Should be applied as per the Brand South Australia – Branding Guidelines

Examples of acceptable use of these elements are included as an appendix to this document.
